<b>Break</b>				
<b>MDO</b>				
<b>Closing Session</b>				
17:00	- common VFS paper? - next task? - feedback?	All	All	30

### Meals, November 2<sup>nd</sup>

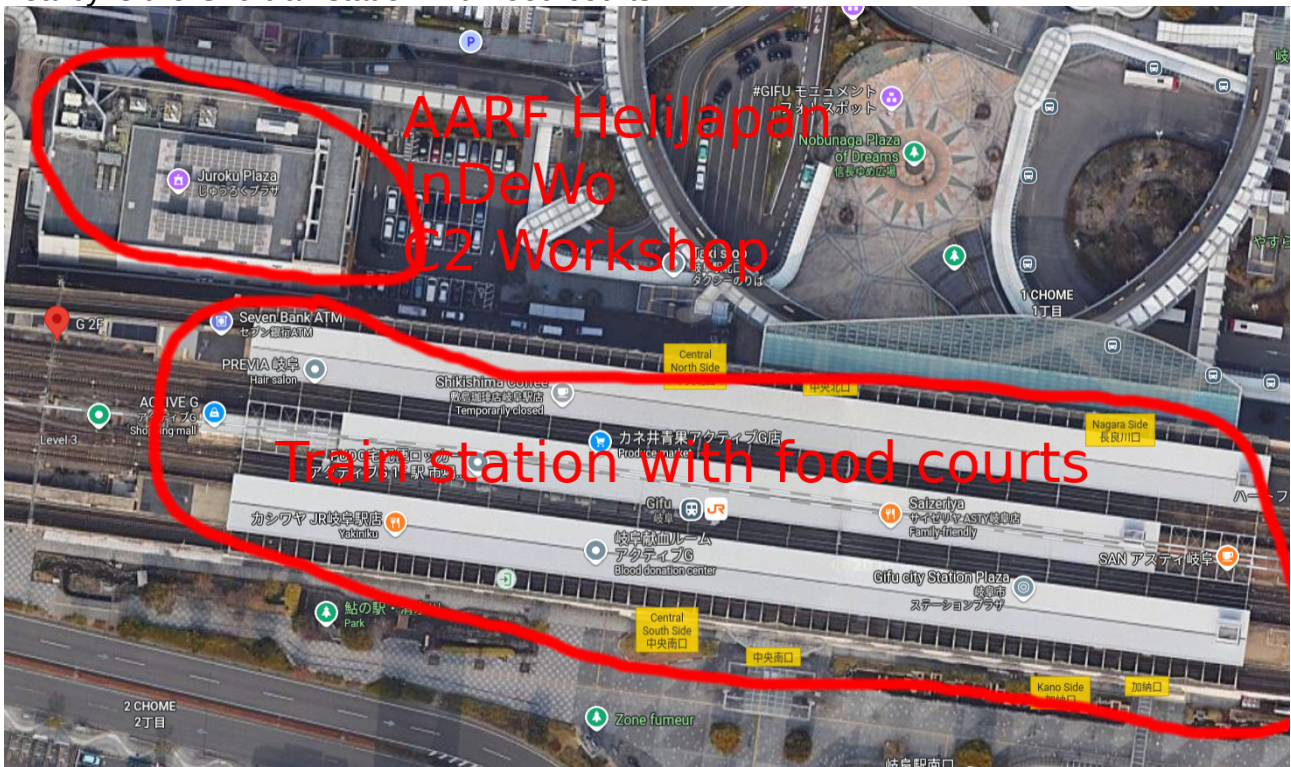

There is **no** break between the CAMRAD II Workshop and InDeWo. In order to not break the time, the recommendation is to head over to the food court for a quick lunch. Feel free to already join up with us, but there is likely no possibility to sit us all together.

We are looking into a dinner after the AARF welcome reception. Once the invitation is out, you will be able to indicate your interest. At the reception, there will be snacks and drinks, but not a full meal. Our idea would be to have a light, but cozy dinner afterwards. Current idea would be to book an Isakaya.

**Location:**

Juroku Plaza, Gifu City, Gifu Prefecture, Japan

nearby is the Gifu trainstation with food courts

**The final agenda including phone numbers will be emailed to signed up people. No need for the Internet to call us.**
